Residential Electric Water Heaters:
Comfort is right at home with Rheem

- Best known brand
- Best quality, fewer call backs
- Full product line and parts
- Check out our tankless electric and ENERGY STAR® Hybrid Heat Pump lines
Electric water heaters with performance you deserve and reliability you expect

Rheem has an exceptional line of electric water heaters. From our non-metallic Marathon® with a limited lifetime warranty, to our latest Hybrid with heat pump technology, we provide durability and energy saving options others can’t. Electric models are easy to install, come in a wide range of warranties, and have the reliability you expect from Rheem. When selecting a water heater, choose the leader, choose Rheem.

Hybrid Water Heater

How the Rheem Heat Pump Water Heater Works
In “Energy Saver” mode, this water heater’s high efficiency heat pump operates automatically for hot water storage in this sequence:

1. A fan pulls air through the top air filter
2. Heat in the air is absorbed by eco-friendly refrigerant inside the evaporator coil and cool (dehumidified) air is exhausted
3. Refrigerant is pumped through a compressor, which increases the temperature
4. Simultaneously the cooler water from the bottom of the tank is pumped to the top of the appliance, where it circulates through a patented condenser coil
5. Hot refrigerant transfers its heat to the water inside the condenser coil
6. Heated water is returned back to the top of the tank
7. All functions are controlled simultaneously by an advanced circuit board located behind the user touch pad
   - In “Normal” mode, the heat pump can run in tandem with an electric element during periods of high demand
   - In “Electric Heat Only” mode, the heat pump is disabled and the appliance operates like a standard electric water heater with two elements
8. Condensate drain connection
9. Backup electric heating elements
Marathon

Temperature and Pressure Relief Valve
Opens to allow water to escape if the tank pressure or temperature becomes excessive

All-Plastic Tank

Thermally Fused Upper Heating Element
Provides protection against dry-firing

Polyethylene Outer Jacket
Scratch resistant and light weight for easy installation

2-1/2" Insulation

Titanium Lower Element
Superior resistance to lime build-up

Recessed Brass Drain Valve
Out of the way of brooms and scrubbers

Professional and Fury

Temperature and Pressure Relief Valve
factory supplied

Energy Saving Heat Traps
Included in the water inlets and outlets

Patented Magnesium R-Tech® Anode Rod
Design incorporates a special resistor that protects the tank from corrosion

Heating Elements
Resistored for added protection

Porcelain Enamel Tank Lining
resist corrosion

Rigid Foam Insulation
Energy efficient

EverKleen™ Self-cleaning System
Fights sediment build-up, reduces energy costs and provides more hot water

Durable Brass Drain Valve

Patented R-Tech Anode Rods
prolong the life of the water heater

Patented Lifeguard™ Elements
are durable for high performance

EverKleen™
self-cleaning system fights sediment build-up

Plus

Exclusive Rheemglas™ Porcelain Enamel Tank Lining
is engineered for durability and long tank life

High Energy Efficiency
Rheem Electric Water Heaters provide more hot water at lower operating cost

<thead>
<tr>
<th>Model</th>
<th>Features</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Hybrid Heat Pump</strong></td>
<td>• Super efficient – 2.0 energy factor, over TWICE the efficiency of standard electric water heaters &lt;br&gt; • Fast recovery, easy installation &lt;br&gt; • Easy-to-use LED touch pad &lt;br&gt; • 40 and 50-gallon capacities &lt;br&gt; • 10-Year limited tank and parts warranty</td>
</tr>
<tr>
<td><strong>Professional</strong></td>
<td>• .91-.95 EF &lt;br&gt; • Designed for professionals by professionals &lt;br&gt; • Resistored heating elements and premium grade anode rod &lt;br&gt; • 20 to 120-Gallon capacities &lt;br&gt; • 240 Volt AC/Single Phase &lt;br&gt; • 8-Year limited tank and parts warranty – with a professional installation</td>
</tr>
<tr>
<td><strong>Fury™</strong></td>
<td>• .85-.95 EF &lt;br&gt; • Isolated tank design and high efficiency resistored heating element &lt;br&gt; • 20 to 120-Gallon capacities &lt;br&gt; • 240 Volt AC/Single Phase &lt;br&gt; • 6-Year limited tank and parts warranty</td>
</tr>
<tr>
<td><strong>Marathon® Point-of-Use</strong></td>
<td>• .91-.95 EF &lt;br&gt; • The most durable electric water heater ever made &lt;br&gt; • Lightweight and easy to install &lt;br&gt; • Seamless polybutene tank &lt;br&gt; • 40, 50, 85 and 105 -gallon capacities &lt;br&gt; • 240 Volt AC/Single Phase &lt;br&gt; • Lifetime limited tank and 6-Year limited parts warranty</td>
</tr>
<tr>
<td><strong>Marathon®</strong></td>
<td>• .91-.95 EF &lt;br&gt; • Designed for Harsh Environments &lt;br&gt; • Lightweight and easy to install &lt;br&gt; • 30 to105-Gallon capacities &lt;br&gt; • 240 Volt AC/Single Phase &lt;br&gt; • Lifetime limited tank and 6-Year limited parts warranty</td>
</tr>
<tr>
<td><strong>Marathon® Heavy Duty</strong></td>
<td>• .91-.92 EF &lt;br&gt; • Designed for Harsh Environments &lt;br&gt; • Lightweight and easy to install &lt;br&gt; • 30 to105-Gallon capacities &lt;br&gt; • 240 Volt AC/Single Phase &lt;br&gt; • Lifetime limited tank and 6-Year limited parts warranty</td>
</tr>
<tr>
<td><strong>Point-of-Use</strong></td>
<td>• .88 EF &lt;br&gt; • Designed for areas that require additional counter space &lt;br&gt; • Baked enamel top for a beautiful finish &lt;br&gt; • 40-gallon capacity &lt;br&gt; • 240 Volt AC/Single Phase &lt;br&gt; • 6-Year limited tank and parts warranty</td>
</tr>
<tr>
<td><strong>Table Top</strong></td>
<td>• .85-.95 EF &lt;br&gt; • Designed for manufactured housing &lt;br&gt; • CSA and HUD certified &lt;br&gt; • Over-temperature protector &lt;br&gt; • 20, 30, 40 and 50-gallon capacities &lt;br&gt; • 240 Volt AC/Single Phase &lt;br&gt; • 5-Year limited tank and 1-Year limited parts warranty</td>
</tr>
<tr>
<td><strong>Warrior™</strong></td>
<td>• .91-.95 EF &lt;br&gt; • Designed for Harsh Environments &lt;br&gt; • Lightweight and easy to install &lt;br&gt; • 30 to105-Gallon capacities &lt;br&gt; • 240 Volt AC/Single Phase &lt;br&gt; • Lifetime limited tank and 6-Year limited parts warranty</td>
</tr>
<tr>
<td><strong>Solaraid™ HE</strong></td>
<td>• .91-.95 EF &lt;br&gt; • Designed for use with closed loop solar systems &lt;br&gt; • Choice of two models – storage tank or single element water heater &lt;br&gt; • A special 1/2&quot; NPT opening is provided for installation for a &quot;probe-type&quot; thermometer &lt;br&gt; • Double wall, wrap around heat exchanger &lt;br&gt; • 80 and 120-Gallon capacity &lt;br&gt; • 6-Year limited tank and parts warranty</td>
</tr>
<tr>
<td><strong>Solaraid™ Storage</strong></td>
<td>• .91-.95 EF &lt;br&gt; • Designed for Harsh Environments &lt;br&gt; • Lightweight and easy to install &lt;br&gt; • 30 to105-Gallon capacities &lt;br&gt; • 240 Volt AC/Single Phase &lt;br&gt; • Lifetime limited tank and 6-Year limited parts warranty</td>
</tr>
<tr>
<td><strong>Tankless Electric</strong></td>
<td>• Temperature and pressure relief valve is included with all tank-type models &lt;br&gt; • Units meet or exceed ANSI requirements and have been tested according to D.O.E. procedures. Units meet or exceed the energy efficiency requirements of NAECA, ASHRAE standard 90, ICC Code and all state energy efficiency performance criteria. &lt;br&gt; • Ask your dealer for complete warranty information.</td>
